

Natural Henna Body Art

What to expect from natural henna...

- For best color, read and follow aftercare instructions.
- Leave henna paste on for as long as possible (4 hours or more).
- Hands/wrist or feet/ankles will have the best color.
The further away from those areas, the lighter the henna stain.
- ***It take 2-3 days to reach full color!***
- Expect 5-10 days of good color, then it will exfoliate completely away.
