Henna Design Templates

Henna Practice Templates eBook

Level up your henna skills with this collection of blank hand templates designed for practicing and creating new designs. These templates are drawn with very thin fingers. I found that if the fingers are too thick on the template, it's hard to recreate the design with actual henna on real fingers. The thinner fingers and small hand templates help compensate for that.

Print and use them however you like:

- Practice designs with pen, pencil, or actual henna right on the page
- Create your own design portfolio to show clients
- Host a creative henna night with friends with markers, glitter, and stickers!

When you're done, toss the paper in your compost or recycling bin. Print as many as you need (just keep the copyright info visible). Practice, play, and perfect your art, one hand at a time.
